

www.PrimerMagazine.com

Thank you for downloading our free art!

All you have to do is print them and frame them! They can be printed at 100% resolution or any smaller size for a crisp, colorful print. It may be easier to find the frames you want to use first, then have the art printed to those sizes.

I personally do all of my printing at Costco and all of my frames are from Ikea, which range in price from \$10-\$20.

**If you print and hang it, I would LOVE to see a
photo of it! Share it in the comments
on the article:**
